Imre Tóth

Employed

Hédervár, Győr-Moson-Sopron, Hungary

Summary

I'm a motivated and detail-oriented web developer with a solid foundation in front-end technologies, including HTML, CSS, Bootstrap, and JavaScript. I have hands-on experience with version control using GitHub and basic knowledge of SQL for database management.

I recently completed a comprehensive WordPress course, where I gained practical experience with Elementor, Elementor Pro, WooCommerce, and Canva, enabling me to create responsive and visually appealing websites. Additionally, I am proficient in Microsoft Office tools.

I hold a B2 level English language certificate (CEFR), which supports my ability to work in international and collaborative environments.
